Current Miami University Senior pursuing a B.S. in Economics with a minor in Computer Science, specializing in data analysis. I am proficient in transforming complex data into user friendly, meaningful insights. Experienced in managing financial and operational challenges, I apply a strategic, data-driven approach to problem-solving. Expanding my expertise in Tableau, I'm committed to leveraging my analytical skills for data-focused roles.

EDUCATION

Miami University, Farmer School of Business

Major: B.S in Economics | Minor: Computer Science

- GPA: 3.4/4.0

Expected Graduation May 2024

Oxford, Ohio

LEADERSHIP & INVOLVEMENT

Sigma Pi Fraternity

Treasurer

May 2022 – June 2023

Oxford, Ohio

- Successfully navigated Sigma Pi Fraternity through a challenging financial situation, resolving a \$20,000 debt by negotiating payment plans with the national fraternity and strategically enhancing member dues collection. Effectively managed and allocated finances for rent, social, and philanthropy events, restoring fiscal health and ensuring organizational sustainability.
- Revitalized Sigma Pi Fraternity's financial and operational health as Treasurer amid a leadership void by implementing detailed financial reporting, spearheading business process improvements, and fostering a culture of accountability, culminating in enhanced decision-making and laying a foundation for long-term organizational stability and growth.

WORK EXPERIENCE

VIP Valet Services

Event Manager

May 2018 – Present

Chicagoland Area

- Optimized operational efficiency in valet services through analytical space management and systematic operational oversight. Achieved notable improvements in customer satisfaction and punctuality, contributing to the company's positive client feedback and increased event satisfaction.
- Led event logistics for a valet company, coordinating teams across valet, security, and transportation to ensure smooth operations and client satisfaction. Established effective communication protocols and strategic staff placement, resulting in seamless event execution and enhanced service reputation.

Rocket Testing

Inventory Specialist

Dec 2020 – Jan 2021

Chicagoland Area

- Efficiently managed test kit inventory for Covid Testing, using data analysis to forecast needs across multiple sites, adapting to fluctuating Covid case rates and ensuring optimal kit availability.
- Implemented and maintained a comprehensive tracking system for Covid test kit distribution, analyzing walk-in data and usage trends to optimize supply levels, significantly enhancing testing operation efficiency during critical pandemic response.

Hayden Construction

Installation and Demo Crew / Schedule Manager

May 2021 – August 2021

Chicagoland Area

- Developed foundational skills in business operations, including job-site sales and customer service. Demonstrated strong teamwork and leadership by effectively coordinating team member distribution across various projects, ensuring timely project completion and high customer satisfaction.
